La storia / *The history*

La differenza tra una maniglia e un semplice pezzo di ottone nasce nel 1986, quando Paolo e Danilo Cali, insieme a Mario Facchetti, fondarono la Linea Cali srl e iniziarono a trasformare semplici maniglie in ottone in complementi di arredo a tutti gli effetti.

Un'idea rischiosa ma lungimirante, che rivoluzionò il mondo della maniglieria e le permise di diventare una delle aziende di riferimento nella produzione di "maniglie di stile".

Dopo oltre 35 anni dalla sua fondazione Linea Cali continua a produrre in Italia seguendo la stessa filosofia, rappresentando nel mondo il simbolo del lusso Made in Italy.

The difference between a handle and a simple piece of brass was born in 1986, when Paolo and Danilo Cali, together with Mario Facchetti, founded the Linea Cali srl and began to transform simple brass handles into furnishing accessories for all purposes.

A risky but far-sighted idea, which revolutionized the world of handles and allowed it to become one of the leading companies in the production of "style handles".

More than 35 years after its foundation Linea Cali continues to produce in Italy following the same philosophy, representing the symbol of Made in Italy luxury in the world.
